

DISTRIBUTING THE NEW GUY

The brown bin door to door distribution will begin in August for the MRC of Brome-Missisquoi. Inside your street bin, you'll find a smaller kitchen bin, a practical guide and a calendar to know when the collection will begin in your municipality.

The website bmvert.ca is always a good source to obtain more information.

Placing the right materials in the right bins is the solution for our *regional success!*

Thank you for all the efforts you'll make to produce *high-quality compost!*
